Foremost Futurist

## CSA CELEBRITY SPEAKERS

Dr. Michio Kaku is a theoretical physicist, best-selling author and scientist of world renown. He is the Henry Semat Professor of Theoretical Physics at the Graduate Centre of the City University of New York. His goal is to complete Einstein's dream of a "theory of everything", a single equation that unifies the 4 fundamental forces of the universe. From interviews to documentaries, Dr. Kaku has explained the most fascinating and complex ideas in science today. On television he has been featured on the PBS documentaries: Einstein Revealed, Stephen Hawking's Universe, and Science Odyssey.

**"You have to realise that most of science is not done by direct experiment at all." Michio Kaku**

### In detail

His technical books are required reading for scores of Ph.D. graduate students in major physics laboratories around the world. His weekly radio programme Explorations in Science focusses on topics such as frontiers in physics, black holes, time machines, hyperspace, the human genome project and genetic engineering.

### What he offers you

Using the cutting edge research of today's foremost scientists, Michio explores the science of tomorrow: computers, artificial intelligence, reshaping our genetic inheritance. He explains how science is opening entirely new avenues for society and organisations at large and provides valuable advice on how to prepare for change.

### How he presents

A mesmerising and humorous speaker, he conveys a contagious sense of the wonders of science at the most prestigious conferences world-wide.
