

Prof. Dr. Stefan Rahmstorf

Leading Expert on Environment and Climate Change

CSA CELEBRITY SPEAKERS

Stefan Rahmstorf is recognised globally as a leading expert on the environment and climate change. He is Professor of Physics of the Oceans at Potsdam University and heads the Climate System Department at the Potsdam Institute for Climate Impact Research. He is a member of the German Advisory Council on Global Change and forms part of the Advisory board on sustainable development for the state of Baden-Württemberg.

"Germany's leading expert on sustainable development and climate change"

In detail

The Oceanographer and Climatologist holds a PhD in oceanography from Victoria University of Wellington (1990). His main area of work focuses on the role of ocean currents in climate change. In 1999 he was awarded the US\$ 1 million Centennial Fellowship Award of the US-based James S. McDonnell foundation to assist his research projects and experiments.

What he offers you

Few are better qualified than Stefan Rahmstorf to talk in great detail about the challenges and economic impact of global climate change. Stefan also offers organisations viable "greener" solutions based on his in depth research and analysis of the current way in which the Earth's climate is changing.

How he presents

Fact-filled and well-researched, Stefan's presentations are designed to precisely meet clients' specific needs and are always followed by a highly informative and poignant question and answer session.

Topics

Climate, Water and Environmental Issues
The Global Repercussions of Climate Change
Corporate Responsibility and the Environment
Sustainable Development

Languages

He presents in German or English.
