IN DETAIL:

Jack Shaw has advised leading technology providers including Oracle, SAP, IBM and HP Enterprises. He has delivered expert guidance to Fortune 500 Companies such as General Electric and Coca Cola and to numerous small and mid-market public and private sector organisations. He was voted one of 2017's Top 25 Professional Speakers by over 27,000 meetings planners, executives and conference attendees - the only Technology speaker to be accorded this recognition. As a futurist, he is particularly expert at helping C-level executives and managers understand, and plan for the impacts of emerging technologies.

WHAT HE OFFERS YOU:

Jack Shaw is the quintessential candidate for delivering transformative knowledge of AI at high-level business gatherings. His unique blend of experience, foresight in technology trends, and ability to demystify AI make him an unparalleled expert for guiding organisations through the AI-driven future of business.

HOW HE PRESENTS:

A charismatic, dynamic speaker with a deep understanding of how emerging technologies create disruption while enabling innovation.
