- Strategic Foresight and Future Trends

LANGUAGES:

She presents in English.

IN DETAIL:

Cathy, who earned an MBA from Columbia Business School, was previously a Partner at GroupM, WPP's media investment arm. She held various leadership positions at WPP, including digital media buying, data and analytics, content, strategic consulting and financial communications in London, New York and Beijing. She is recognised as a thought leader and influencer in the global tech community, with a strong presence in international conferences, media, and academic circles.

WHAT SHE OFFERS YOU:

Cathy is a sought-after speaker and thought leader, known for her insightful perspectives on emerging technologies and their societal implications. With a wealth of experience in both technological advancements and strategic foresight, she has made significant contributions to shaping the future landscape of these domains.

HOW SHE PRESENTS:

With a deep commitment to fostering collaboration across sectors and bridging the gap between technology and policy, Cathy continues to inspire and empower organisations to navigate the complexities of our rapidly evolving digital age.
