LANGUAGES:

He presents in English.

IN DETAIL:

Chris is considered one of the world's foremost experts on counter threat intelligence with more than 20 years of experience working in enterprise, industrial and government segments addressing evolving security threats. He gained global attention in 2015 for demonstrating the risk to aviation, that allowed attacks against flight control system. He is routinely invited to speak at industry conferences and is a regular commentator in the media. His ability to find holes in everything has helped companies, governments and the public improve their safety over many years.

WHAT HE OFFERS YOU:

As one of the world's most well-known hackers and researchers, Chris shares his findings on the current state of security and exposes the threats that face governments, industry and the individual. He also explores the future based on current research and the challenges that we need to be preparing for in the next 5 years.

HOW HE PRESENTS:

Flamboyant, hard hitting and humorous he challenges audiences to change the paradigm and take responsibility.
