He presents in English.

PUBLICATIONS:

- 2026** What Should my Children Do?
- 2024** Growth: A Reckoning
- 2020** A World Without Work: Technology, Automation and How We Should Respond
- 2015** The Future of the Professions: How Technology Will Transform the Work of Human Experts

IN DETAIL:

Daniel is the Mercers' School Memorial Professor of Business at Gresham College and holds several prestigious academic appointments. He is a Digital Fellow at the Stanford Digital Economy Lab, a Senior Research Associate at the Institute for Ethics in AI at the University of Oxford, an Associate Member of Oxford University's Department of Economics, and a Research Professor at King's College London. Dr Susskind is a member of the UK Government's Expert Panel on AI and the Future of Work, advising on some of the most significant technological and economic challenges facing society today. Prior to his academic career, he held several senior policy roles within the British Government, including positions in the Prime Minister's Strategy Unit, the Policy Unit at 10 Downing Street, and the Cabinet Office.

WHAT HE OFFERS YOU:

A highly sought-after speaker, Daniel combines rigorous economic research with practical insights, delivering compelling presentations on artificial intelligence, automation, economic growth, digital transformation, and the future of employment. His thought-provoking talks equip audiences with a deeper understanding of how emerging technologies are reshaping industries, organisations, and the global economy.

HOW HE PRESENTS:

Daniel Susskind is an engaging, insightful and highly articulate speaker who combines academic expertise with real-world relevance. Drawing on cutting-edge research, compelling case studies and practical examples, he explains complex topics in a clear and accessible way.
