

## Hedwige Nuyens

**Global Banking Policy Leader**

*“True innovation in banking comes not just from technology, but from creating a more inclusive and sustainable financial system.”*

Hedwige Nuyens is an internationally recognised financial speaker specialising in global banking, financial regulation, and corporate governance. As Managing Director of the International Banking Federation and Chair of European Women on Boards, she is renowned for her expertise in sustainable finance, responsible leadership, and the future of the banking industry.

### TOPICS:

- Sustainable Finance
- Risk Management & Financial Stability
- Diversity & Inclusion in Finance
- Digital Transformation in Banking

### LANGUAGES:

She presents in English.

### IN DETAIL:

As a leading finance expert, Hedwige Nuyens brings more than two decades of experience across international banking, financial policy, and industry advocacy. Before joining the International Banking Federation, she held senior leadership roles at European Savings and Retail Banking Group and BNP Paribas, building extensive expertise in commercial banking, regulatory affairs, and global financial cooperation. As a keynote speaker, she is widely respected for her insights into banking innovation, sustainable finance, ESG strategy, financial regulation, and economic resilience. Her work supports stronger collaboration between financial institutions, regulators, and policymakers, helping organisations adapt to a rapidly changing global financial landscape.

### WHAT SHE OFFERS YOU:

Hedwige Nuyens is a popular keynote speaker who offers audiences deep insights into the global banking landscape, drawing from her vast experience in international finance and regulatory frameworks. She is also known for her advocacy of diversity and inclusion, fostering a more equitable and diverse workplace in finance.

### HOW SHE PRESENTS:

With her global perspective, Hedwige provides practical advice on navigating financial trends and implementing policies that promote stability and innovation in the industry.
