Muthla Al-Sayer

CEO and Founder of OmniX lab, New York

"One of the sharpest minds in the technology startups"

Muthla Al-Sayer is Executive Board Member at Toolbox OS and the CEO and Founder of OmniX Lab New York, where she has shaped the vision and purpose of OmniX labs, by bringing her experience and understanding of connecting the physical space in a digital world.

TOPICS:

- Startup Journey B to C and B to B companies. - GRIT!
- Women Founders in the Startup World
- Women in Technology - Developers and Engineers

LANGUAGES:

She presents in English.

IN DETAIL:

Prior to OmniX labs Muthla was CEO of TagStone, an IoT technology systems integration company and she was a management consultant at Bridgewater Associates, the world's largest hedge fund. Prior to Bridgewater, Muthla was the Chief Technology Officer at Baroue, a Kuwait based children's retailer and division of MS Retail. As a startup, she developed and implemented the technology strategy and platforms that are currently in place today. She started her career at Goldman Sachs, performing several information systems roles including corporate services project lead, software developer and infrastructure engineer. Muthla graduated from Rensselaer Polytechnic Institute. She received a BS in Computer Systems Engineering and MBA from MIT Sloan.

WHAT SHE OFFERS YOU:

Muthla's expertise on the intersection of technology, business and education helps audiences around the world understand what is to come in the future. She shows how through a machine learning platform businesses and customers are able to form better experiences from any captured moment anytime, anywhere.

HOW SHE PRESENTS:

Highly engaging and inspiring, Muthla's speaking style involves openness, and is deeply insightful and a challenge to the audience.
