2010 Nouvelles Approches de la
Prévention en Santé Publique :
L'Apport des Sciences
Comportementales, Cognitives
et des Neurosciences

IN DETAIL:

Prof. Oullier's research focuses on decision neuroscience applied to consumer and patient engagement and behaviour change. Olivier currently writes a column on neurotechnologies "This is your brain on business" in *Fortune Magazine*. Olivier designs, implements and evaluates evidence-informed multi-scale behavior and system change strategies for public and private organizations. He has developed a proprietary methodology allowing to assess the gap between intention (what people say/think they do) and action (what they do in their daily activities and environments).

WHAT HE OFFERS YOU:

Olivier's unique field, consulting and academic experience allows him to introduce the concepts of 'social neuromarketing' and 'embodied economics' as new ways to consider insights from the real life of human beings to design realistic strategies and nudges to improve people's life and the functioning of corporations.

HOW HE PRESENTS:

Olivier's presentations are customised to fit the needs of the clients to whom he is speaking. His messages are powerful and effective, delivered in his personal, yet highly professional style.
