

Pranav Mistry

Renowned Expert on AI & Technology

"One of the two or three, best inventors in the world right now"
Chris Anderson

Pranav Mistry, a renowned figure in the field of AI and technology, is currently the CEO of TWO Platforms, a company he founded to revolutionise human-AI interactions. His latest venture, SUTRA, is a groundbreaking multilingual generative AI model designed to democratise AI access by supporting over 50 languages. This model aims to bridge the linguistic gap in AI, making advanced technology accessible to non-English speaking populations and fostering innovation across various sectors globally (AIM Research) (TWO AI).

TOPICS:

- Metaverse

- Social Impact of Technology
- Innovation: Designing Intelligence
- Motivation; Life is Trying to See if Things Work
- Technology to the Masses but in a Meaningful Manner
- Robotics and the Future

LANGUAGES:

He presents in English.

IN DETAIL:

Pranav served as Corp SVP for Samsung Electronics and President and CEO of Samsung Technology and Advanced Research. He is also known as the creator of Sixth Sense. He previously worked with Microsoft as a UX researcher and previous projects from his work at MIT includes intelligent sticky notes, Quickies, that can be searched and can send reminders; a pen that draws in 3D; and TaPuMa, a tangible public map that can act as Google of physical world. His research interests also include Gestural and Tangible Interaction, Ubiquitous Computing, AI, Machine Vision, Collective Intelligence and Robotics.

WHAT HE OFFERS YOU:

The genius behind the Sixth Sense technology, Pranav Mistry is a recognised inventor. The success he has achieved by being able to create useful devices is highly impressive and he explains and offers a fascinating perspective into why he believes imagination is the only limit in merging technology with real life.

HOW HE PRESENTS:

Pranav radiates an enthusiasm for invention which is thoroughly contagious. He is a fascinating and spontaneous speaker, with a passionate desire to help everyone to be creative and innovative.
