

Ria Lina

TV Presenter, Comedian & PhD Scientist

"Where science, comedy, and communication collide."

Ria Lina is a multi-award-winning comedian, broadcaster, writer, scientist, and keynote speaker whose unique combination of sharp intellect, scientific expertise, and exceptional humour makes her one of the most distinctive voices on the speaking circuit today. Known for appearances on major BBC and Channel 4 programmes, this highly sought-after speaker brings intelligence, insight, and energy to conferences, awards ceremonies, and corporate events worldwide.

TOPICS:

- Neurodiversity in the Workplace
- Autism, Inclusion & the Power of Different Thinking
- Women in STEM & Scientific Leadership
- Science, Innovation & Emerging Technologies
- Diversity, Equity & Representation
- The Power of Humour in Communication and Leadership

IN DETAIL:

Ria has established herself as one of the UK's most respected comedians and presenters, combining a successful media career with an impressive academic background. This acclaimed speaker holds a BSc in Experimental Pathology, an MSc in Forensic Science, and a PhD in Virology, giving her a unique perspective on science, technology, healthcare, and society. A familiar face across television and radio, Ria has appeared on Live at the Apollo, Have I Got News For You, QI, The Last Leg, Mock the Week, and regularly co-hosts Pointless. She is also a frequent commentator on BBC News, Sky News, and Times Radio, where she provides expert analysis on scientific, social, and cultural issues. Diagnosed with autism, Ria has become a powerful advocate for neurodiversity, helping organisations better understand inclusion, innovation, and the value of different ways of thinking.

LANGUAGES:

She presents in English.

WHAT SHE OFFERS YOU:

Ria delivers keynote presentations, conference facilitation, awards hosting, and panel moderation on topics including neurodiversity, STEM, innovation, inclusion, science communication, resilience, and workplace culture. This versatile speaker combines academic expertise with humour and real-world insight, helping audiences engage with complex topics in a fresh, accessible, and memorable way.

HOW SHE PRESENTS:

Ria is intelligent, witty, and highly engaging. Combining sharp observational humour with scientific credibility, she creates an energetic atmosphere that keeps audiences entertained while delivering meaningful insights and practical takeaways.
